term will expire March 4 next. The two branches of the legislature voted separately. Today they meet in joint convention to canvass the vote and formally to announce the election of the republican nominee.

Quay in the Lead.

Harrisburg, Jan. 18.—[Special]—The legislature took a joint ballot for United States senator today without result. Mr. Quay led with 112 votes.

Senator Matthew Stanley Quay was born Sept. 30, 1833, in Dillsburg, York county, Pa., was graduated from Jefferson college in 1850 and admitted to the bar in 1854. His rise in official life was singularly regular. Beginning as prothonotary of Beaver county in 1855, he became in turn member of the legislature, secretary of the commonwealth, recorder of Philadelphia, state treasurer and United States senator. In the meantime he became a lieutenant in the Tenth Pennsylvania reserves and colonel of the One Hundred and Thirty-fourth Pennsylvania regiment. After resigning the latter office he took part as a volunteer in the assault on Marye's Heights Dec. 13, 1862.

Hope It Is the Paul Jones. Mobile, Ala., Jan. 18.—A report has reached here that the missing yacht Paul Jones has been sighted off the Florida coast, above Tampa. This report cannot be verified from here, but it has had the effect of reviving hope among those interested in the fate of the pleasure-boat. Mayor Taggart of Indianapolis, whose daughter was one of the party on board, arrived here, in company with Lawrence Jones of Louisville, the owner of the yacht. They will remain here and maintain constant communication with all points on the coast.

WON'T HOLD POST MORTEM

The Doctors Will Not Have Their Curiosity Satisfied

Undoubtedly there are a number of disappointed physicians in this city who had hoped that they would be allowed to hold a post mortem over the remains of the late Rev. A. D. Hendrickson.

For a man to live forty-seven and a half days without food is not an every day happening, and just what effect it would have on the human system was a question that could only be determined by the holding of a post mortem. It is said that members of the family objected, and the remains will not be subject to the knife for the good of science.

GERMANY IS INSULTED

Congressman Berry's Threat to Lick Both Spain and the Fatherland is Denounced.

Berlin, Jan. 18.—[Special]—Several papers here urge the emperor to seek satisfaction for Congressman Berry's speech in Washington on Friday, which they regard as insulting. Mr. Berry, in speaking of the bill to promote the efficiency of the navy, said he would form his own conclusions as to what was best for the United States even if it involved the necessity for whipping Spain and Germany.

DERVISHES GIVE IT UP

Surrender of the Force of Ahmed Fedil to a British Gunboat in the Nile.

London, Jan. 18.—[Special]—A Cairo dispatch says the dervish forces under Ahmed Fedil have surrendered to a British gunboat on the Nile. Fedil escaped. This dissipates the rumor of the annihilation of the British forces under Gen. Lewis.

Washington, Jan. 18.—[Special]—The order for the arrest of Eagan may not be made until tomorrow.

STUDENTS ARE RIOTING

Germans and Bohemians Arranged in Hostile Phalanx at Prague.

Missing Yacht Paul Jones Believed to Be Ashore in the Grand Bature Marsh.

Mobile, Jan. 18.—[Special]—There is no news today of the yacht Paul Jones. It is believed the vessel is ashore in the marshes on the Grand Bature. A relief party has gone there.

Are Attacked by Strikers.

Portland, Ind., Jan. 18.—The first clash as a result of the Red Key strike came Tuesday afternoon. John McKibben, his two sons and a man named Segraves had been put to work blowing, and a squad of fifteen or twenty strikers marched to the factory and attacked them. The elder McKibben was seriously bruised. It is expected that arrests will follow. It is asserted that additional men, to take the places of those who are striking, have been brought from the east and are being kept under cover.

Storm Damage in Switzerland.

Berne, Jan. 18.—The storm which has just subsided has been the most serious in years. The most damage done in Switzerland was in the Bernese Oberland, and particularly in the Emmental valley. There have been countless landslides—several of them serious—in the Alps; many rivers have overflowed their banks and much property has been destroyed.

German Papers Are Aggrieved.

Berlin, Jan. 18.—The German press is unanimous in expressions of indignation because of the continued abuse of American papers. Germany is charged with anti-American intrigues, which, the papers say, is wholly undeserved. Recent remarks to the same effect in congress the German papers style "rowdy utterances."

SET LEGISLATIVE WHEELS IN MOTION

BOTH HOUSES OF THE LEGISLATURE BEGIN WORK.

First Appropriation Bill of the Session is a Small One—Bonds of County Officers Are Good if Filed Any Time Before Assuming Office—The Senatorial Contest.

Madison, Jan. 18.—[Special]—The senatorial contest absorbs most of the interest of the legislature just at present, and the sessions in both houses were brief this morning.

The first appropriation bill of this session was introduced in the assembly. It gives \$47 to Oshkosh fishermen whose net were destroyed by the game warden. Two other bills were introduced in the assembly, one designating and classifying the inland waters of the state in relation to the taking of fish, and the other amending the forms of statements by insurance companies.

Speaker Ray urged the members to hurry up the introduction of bills.

In the senate a bill was introduced relative to bonds of county officers, amending the statute so as to permit the filing of bonds at any time prior to taking office. The purpose of the bill is to cover the case of Treasurer-Elect Wilkie, of Dane county, whose bond was refused because it was filed too late.

These are the last hours of the senatorial fight before the caucus, and they are lively ones. The Quaries men had a caucus this morning at which 47 members were present only. It is claimed they can count six others as certain. Supporters of other candidates claim there were at least two Babcock and two Stephenson men at the caucus, and still deny that Quaries will get 14 votes from Milwaukee.

Madison, Jan. 18.—Sergeant-at-Arms Agon, of the assembly, last night announced the complete list of his appointees. It is as follows:

Assistant Sergeant-at-Arms—B. O. Wolter, of Appleton.

Postmaster—H. F. Denismore, of Hudson.

Assistant Postmaster—C. F. Torney, of Chippewa Falls.

Day Attendant—H. J. Conlin, of Bayfield.

Doorkeepers—H. H. Thomas, of Darlington, D. Ray, of Douglas county, H. H. Reynolds, of Hurley.

CHOATE WILL GET IT

Favorable Report on His Nomination as Ambassador to the Court of St. James.

Washington, Jan. 18.—[Special]—The senate foreign relations committee this morning ordered a favorable report on the nomination of Joseph H. Choate to be ambassador to England.

Over Three Score Decorations.

The most decorated man in Europe probably is Count August of Eulenberg, the marshal of the German court, who has sixty-three decorations. This record was not even equaled by the late Prince Bismarck, who had only fifty-four decorations. Count Von Moltke, another much-decorated man, had forty-four. Among living men Gen. Von Hahnke comes after Count August of Eulenberg, with a total of fifty-two decorations. He is followed by Prince Albrecht of Prussia, who has forty-four.

The Gentle Spanish Child.

A tourist writes: "At Puente de la Reina, Spain, the place was en fête for four days in honor of the patron saint. The mornings were divided by the natives between long services in the cathedral and letting off rockets in the streets; the afternoons were entirely devoted to bullfights. In the market place were a group of tiny children playing the only game they knew. That was a mimic bullfight. Every stage was faithfully reproduced. Only a few small boys and girls were not taking part in the game. They had managed to capture a live sparrow, and were enjoying the more fascinating pleasure of twisting off its legs and wings."

Action of Sea-Water on Cast Iron.

Some cast-iron cannon balls were recently recovered from the sea near Brest, France. They had been under water for over a hundred years. They could be cut with a knife, a great part of the iron having disappeared. Exposed to the air, the interior became quite hot, of course losing the heat in a short time, after the oxygen of the air had ceased to act upon it.

GERMANS SAY THEY ARE SATISFIED

WILL NOT SET AGUINALDO AGAINST UNITED STATES.

Their Consul and Naval Commanders Have Done Much Mischief, However—General Whittier Says Rebels in Philippines Will Be Easy to Govern—An Expedition Delayed.

Washington, Jan. 18.—[Special]—The denial of the German consul at Manila that he has been in collusion with Aguinaldo in his efforts to defy the authority of the United States is accepted here more as a pledge of future just conduct than as a truthful statement of facts. The truth is that Aguinaldo would never have attained the dangerous prominence he has reached had it not been for the aid and comfort he has received from the German consul and naval commanders in Philippine waters. The disposition manifested by these officials to prevent the United States from obtaining control of the islands has been most pronounced, so much so that it called for an emphatic protest from the state department, and it was only after the American ambassador at Berlin had secured an imperial order commanding a change of conduct that the partiality for the rebels was repressed. It is gratifying to learn that Germany is now friendly towards this nation, but no amount of subterfuge can convince any one conversant with the facts that she has been anything but a covert enemy in the past.

TREATY WILL BE RATIFIED

Friends of the Administration Policy Sure of a Majority

Washington, Jan. 18.—[Special]—The advocates of the ratification of the peace treaty are confident it will be ratified. They made a canvass of the senate with this result: In favor of ratification, 54; against, 26; doubtful, 10. The expansionists say they will get enough votes from the doubtful column to pull the treaty through.

WILL BE EASY TO CONTROL

Gen. Whittier Says the United States Will Have No Trouble in Philippines

New York, Jan. 18.—[Special]—Gen. Chas. Whittier, just from the Philippines, in an interview today declares it will be easy to control the Philippines. Whittier had a talk with Aguinaldo during which the insurgent leader told him he could bring his people to accept an American protectorate.

Checking System Applied to Babies.

In some of the New York department stores babies can be checked like so many umbrellas, while their mothers pursue the elusive bargain from counter to counter. A small boy is detailed to stand guard over a certain number of infants. The small boys and the infants have not been asked for an opinion, but the mothers are enthusiastic in their approval. In Brooklyn the checking system as applied to babies has appeared in a new form. Brooklyn being recognized as the city of churches, the new development is naturally along the ecclesiastical line. The Rev. Dr. Wiley of the Nostrand Avenue Methodist Episcopal church is the originator of the scheme, and the mothers are once more the gainers. A large room has been fitted up with hammocks and cribs, perambulators and toys. Here a volunteer committee of young women assembles every Sunday morning, and here the mothers, who would otherwise be kept at home, leave their babies, while they themselves attend the regular church service. The plan is a novel one, but promises, and deserves, to be popular.

Tom O'Donnell was telling a crowd of friends about the Arlington cemetery in Washington. "You say there is no such thing as a good Democrat," said Mr. O'Donnell; "but I saw an epitaph on one of the tombstones that dissipated any such idea as that."

"What was it?" asked one of the listeners. "It read very simple, and simply said: 'Here lies a Democrat—and a good man.'"

Everybody saw the point of the proof but one man, who hesitated a moment and then asked: "What made them bury them so close together?"

GASOLINE COSTS MUCH CASH

Increase in the Price Ordered by the Standard Oil Company.

Local consumers of gasoline are anything but pleased over a rise in the price of that much used article. As local agent for the Standard Oil company, W. H. Stoddard, has raised the wholesale price of gasoline from 7 to 11 cents since the beginning of the year 1899 and the chances are that it will go still higher. This is the highest figure that it has reached for years, and it is alleged by the trust to be due to the great demand and short supply of petroleum.

CALL EACH OTHER HARSH NAMES

LIVELY TILT IN THE HOUSE OF REPRESENTATIVES TODAY.

Hepburn and Cannon Indulge in a Few Personal Flings—Former is Accused of Being Discourteous and the Latter of Parsimony Leading to Army Abuses.

Washington, Jan. 18.—[Special]—Mr. Hepburn, of Iowa, and Mr. Cannon, of Illinois, had a lively tilt on the floor of the house this morning.

Mr. Cannon accused Mr. Hepburn of being discourteous.

Mr. Hepburn replied by stating that he would not tolerate Mr. Cannon's in suits any longer. He accused him of "miserable parsimony," and said he was responsible for the miserable condition of the army when the war broke out because he had fought the appropriations for the army.

GOT A HANDSOME PRESENT

A Janesville Boy Is Well Thought of by His Father-in-Law

D. N. Hatfield, of 124 Terrace street, who is agent for the Standard Oil Company through this section of the country has a very fortunate son, who makes his home in Ohio.

Mr. Hatfield has been notified that this same son has a father-in-law who must think well of him, for the reason that he presented him with a check for a cool \$10,000 as a present last Christmas. This most excellent present came from a man worth many thousands, and who is today considered one of the most prominent moneyed men in Ohio.

A Singular Lake.

There is a singular lake on Kildin Island, near the coast of Russian Lapland, not far from Kola. This lake is composed of both fresh and salt water. The island is a paleozoic rock, separated from the granite continent by an arm of the sea, and upon it is a lake which seems to be entirely shut off from the sea by a strip of land, but there must be some subterranean communication, for the tides of the sea are noticed in the lake, though in much diminished effect. The lake contains three different kinds of water. On the surface it is fresh water, coming from a few brooks and from the rainfall; lower down it is salt water, and at the bottom sea water, mixed with sulphurous hydrogen gas. The lake harbors fresh water animals on and near the surface, and salt water animals beneath.

Cheap Dog Proves Dear.

Charles Malone, a prominent Portsmouth farmer, was found guilty in Squire Jenkins' court of stealing a 50-cent dog from Henry Pilson, a neighboring farmer. The litigation about the ownership of the dog has already cost the man over \$100. The verdict against Malone was due to the law passed by the last legislature, which says: "Any one who shall steal an animal of the dog-kind shall be deemed guilty of larceny." Heretofore the law required a valuation to be placed on the article alleged to have been stolen. Malone has appealed the case and proposes to carry it to the Supreme Court if necessary.—Cincinnati Enquirer.

DOES NOT WANT ASIATIC CITIZENS

GEORGIAN PROTESTS AGAINST PHILIPPINE CONQUEST.

Senator Bacon Says the Islands Must Either Be Admitted as States or Their People Held as Vassals—Our People Will Never Consent to Savage Citizenship.

Washington, Jan. 18.—[Special]—Mr. Bacon, of Georgia, addressed the senate today in opposition to expansion. He said the Philippines if annexed must in the end either be admitted as states and the inhabitants be United States citizens entitled to equal rights and powers with citizens of other states, or the territory must be held as colonies with their people as subjects and vassals of the United States. It is impossible, he said, that our people should ever consent that these Asiatic communities should be clothed with power to assist in making laws for Americans.

REINDEER ARE USEFUL

Success of the Expedition to Alaska For the Relief of Whalers and Miners.

Washington, Jan. 18.—[Special]—The president today sent a message to the senate reciting the achievements of the reindeer expedition sent to Alaska last year to relieve the distress among the whalers and miners. It is recommended that the thanks of congress be tendered to some of the officers, and that gold medals be presented to others and money to the balance.

GREAT DAM GAVE WAY

Much Damage Done at Cleveland by a Flood Which Was Accidentally Released.

Cleveland, Jan. 18.—[Special]—A dam holding an immense quantity of water, gave way early this morning, and the torrents swept away two piers of the Big bridge. Heavy damage was inflicted.

Several piers became undermined, and at 10 o'clock the immense structure which crosses the Nickel Plate tracks, collapsed.

About 150 feet on the bridge now forms an incline to the bed of the creek below. A collapse was expected for several days, and nobody was in the vicinity when the crash came.

WILLS SAYS HE SAW A ROBIN

A Harbinger of the Merry Springtime Has Been Here.

W. W. Wills, the North River street machinist, is a man who has the respect of the entire community, and the man has not yet been found who doubts his word.

Mr. Wills says that he saw a robin in one of the trees in his front yard this morning.

Not only did he see this most welcome bird but he says that every member of his family were amazed at the sight, and to make sure that it was no other species they secured a pair of powerful glasses which plainly verified their statement.

ELECTRIC FORGE

Where Iron Is Heated by Being Submerged in Water.

One of the astonishing things developed through the introduction of electricity into every-day affairs is a forge, made for bench use, for the heating of soldering irons, or light pieces of metal for working on the anvil, where the heating is accomplished by plunging the article to be heated into a tray of water. This curious forge is made as follows: The tank is of wood or of any other substance which will hold water and not form an electrical conductor. One wire of the electric circuit passes to the bottom of the tank, where it is connected to a plate of metal which lies there. Over this plate, water, preferably saturated with salt, fills the tank nearly to the top and serves to conduct the current of whatever object is to be heated. Nothing could be better for this purpose, for the water naturally closes all about the object and fits it on every side. The other end of the current-conducting wire is fastened to the tongs or led to a metal frame work at the edge of the tank on which the tongs or the shank of a soldering iron lie when it is to be heated. The moment the object to be heated is plunged into the water a current passes from the water through the object, and at the same moment some of the water is decomposed by electrolytic action. The nitrogen of the water becomes electrified and adheres to the object to be heated and forms a film of gas, which separates the object completely from the water, while at the same time this gas forms such an obstruction to the passage of the electric current that the energy of the current is turned into heat.

BOILER EXPLODES DOING DAMAGES

THIRD ACCIDENT OF KIND AT APPLETON FACTORY.

One Man Killed and Buried in the Debris, and Four Others More or Less Seriously Injured—The Property Loss Amounts to \$30,000 or More.

Appleton, Wis., Jan. 17.—Yesterday afternoon the boilers of the Willey Bros. flour mill exploded with fatal results. Engineer W. H. Kramer was killed outright, four persons injured, and the mill was destroyed. This is the third time the mill has been wrecked by explosion of boilers.

The damage will be about \$30,000. The plant is owned by S. R. and Assemblyman T. A. Willey. The explosion occurred at about 2 o'clock and a fire alarm was at once turned in. After the fire was extinguished the body of Engineer Kramer was found, life leaving him just as the debris was removed. The escape of some of the men was miraculous. One was protected by a door, which bore the weight of a brick wall, and another was walled between freight cars by falling brick. The appearance of the ruins indicate that but one boiler exploded, and that was lifted above the surrounding building and deposited 400 feet away. Great timbers are balanced on the top of the 100-foot smoke-stack.

HAVERLY IS COMING AGAIN

A Show Always Popular Because It Is Always New.

Once again Col. J. H. Haverly has "hung his banners on the outer wall," announcing the forthcoming appearance

here of this great minstrel company, on Friday evening, January 20. The company is a large and a very expensive one, consisting of the highest salaried and best obtainable artists, who will unite their efforts in presenting an exposition of minstrelsy that will be an innovation.

The American-Europeans have always been the lofty ideal in minstrelsy, and nothing has been left undone or overlooked to have it remain in that proud position. In attending a performance of the "Haverly's" the general public are never in doubt as to whether it will be a good or mediocre entertainment; for they know full well that it is an organization of reliability, whose every promise is kept to the letter, and they are satisfied the performance will be first class.

INSURANCE COMPANY MEETS

The Citizens Mutual Stockholders Gather in Annual Session.

The annual meeting of the Citizens' Mutual Fire Insurance Company, of Janesville, was held at the office of the company Monday evening. The report of the secretary was most flattering, and the success attained was highly complimentary of the management, especially of Mr. VanAkin the secretary, who has done all the work. C. D. Stevens and A. E. Bingham, who have held the office of vice president and treasurer respectively, were re-elected as directors for three years. Although less than twenty months old this company is carrying \$375,000 of insurance and has paid during 1898, nearly \$1,700 in fire losses, yet have a reserve sufficiently large for all practical purposes. These losses required about 34 per cent. of the premium to pay them, while the officers say that in this city for the last ten years not to exceed 17 per cent. of the premiums has been used to pay losses with.

MACHINE SHOP CHANGES

George Marsden Buys a 51 Interest in the Taylor & Morris Co.

M. D. Taylor has sold his interest in the Taylor & Morris Co. to George Marsden, the deal being closed yesterday afternoon. The plant on North Main street is now owned by Robert Morris and Mr. Marsden but the business will be conducted under the old name. The new member of the firm has been connected with the plant for eight years and has thus gained thorough familiarity with all its resources. Besides doing a general machine shop and foundry business the company is turning out gasoline engines, feed-water heaters and wire working machines, and has a large line of advance orders on the books.

Mr. Taylor has not made up his mind as to his plans for the future. He has several propositions under advisement.

WAS AN EXCELLENT CONCERT

Patricolo Company Gave an Acceptable Entertainment Last Evening.

There was but one circumstance connected with the concert given last evening at the Y. M. C. A. by the Patricolo Concert company that was disappointing. Miss Florence George, the charming vocalist, was too ill to appear, and her place on the program had to be supplied by other members of the company who, although they did excellently, could hardly reconcile the audience to Miss George's absence.

Angelo Patricolo, the pianist, is an artist of exceptional ability. Brilliant in execution, his touch has a wonderful power of expression. His technique is masterly, and his playing as a whole was a revelation to many who considered themselves masters of the piano. His selections were vigorously encored.

Miss Jennie Shoemaker's numbers were admirable. She is a finished elocutionist, and besides shows a keen appreciation of the thought of another whose selections she renders. She is, besides, an accomplished pianist and a skillful accompanist.

The violinist, F. Govenmallas, displayed a high degree of talent, and his playing gave unbounded satisfaction.

Miss Lilian Raso has a soprano voice of fine quality and compass, and her selections were only too few and brief to please the audience.

What Did Shakespeare Mean?

Shakespeare never wrote truer words than, "Life of our pleasant vices doth make whips to scourge us." This can only mean that to our misuse of the pleasures of life we owe most of the ills of poor health. Doubtly do the words apply to men who, through ignorance, folly and indiscretion, have used up their strength, energy and vitality, and left themselves almost wrecks of manhood. Their condition would indeed be pitiable were it not for the fact that a scientific physician, a specialist in the cure of this class of diseases of men, has come to their relief and made it easily possible for weak and vigorless men to regain their lost vitality and vigor. We refer to Dr. Greene, of 148 State Street, Chicago, Ill., discoverer of the world famous Dr. Greene's Nervura, as well as other marvelous, strengthening, vitalizing and invigorating remedies, who, notwithstanding his enormous practice and excessive demand upon his time, offers to consult with any sufferer from nervous and physical debility absolutely free and advise and counsel him in regard to his case without charge. This is an opportunity for weak, enervated and exhausted men, of which immediate advantage should be taken. If you cannot call, write to Dr. Greene about your case. Your disease is certainly curable under his wonderful strengthening, vitalizing and invigorating remedies, and you can be cured at home. At least write for his advice and counsel.

It counteracts any tendency of a cold or a gripe to result in that dangerous disease. It is the best remedy in the world for bad colds or la gripe. Every bottle warranted. BRASS CHECKS ARE OUT OF DATE

MILWAUKEE ROAD TO INSTI- TUTE CHANGE IN SYSTEM.

Pasteboard Tags Will Be Used in Place of the Old-Time Brass Discs—Made in the Interest of Economy and Convenience of All Who Are Concerned.

As announced in The Gazette some two weeks ago, brass checks are to be discarded by the Chicago, Milwaukee & St. Paul road and little pasteboard identifiers used in their stead. Since the system of checking baggage was first established in this country big, heavy brass checks have been used by all lines. The action of the Milwaukee and St. Paul company is a radical one may mean the general death of the unwieldy checks that have so long taken up all the room in traveling men's pockets and filled ladies' purses to the exclusion of all else.

The Milwaukee & St. Paul road has been experimenting with paper or card baggage checks, for some time, on one division of the system and the plan has proved such a success that the brass check will be superseded by the lighter device over all lines of the company. The officers of the road give two reasons for the change. One is that the brass checks are more expensive than the paper ones, the other is that the latter, being small and light, can be carried more readily by the passenger.

To avoid a loss the St. Paul company will use up its present supply of brass checks in checking trunks, punching out the names of the tow and giving the passenger a card. The card will also supplant the brasses on the baggage as soon as the latter are worn out. The pasteboard checks have brass eye-lets and are fastened to the baggage by a piece of stout twine. They will be issued in numerical order, no check being used a second time. The station from which the baggage is sent as well as that to which it is destined will be inserted with a pen or rubber stamp. When the baggage has been delivered the duplicate card given up by the passenger will be canceled by a punch or by crossing out a number. If a passenger should lose his check he will be required to pay 50 cents, the same as when one of the brass checks is now lost.

BASKET BALL SEASON OPENS

The First Game Will Be Played Tomorrow Afternoon at the High School.

The first basket ball game of the season of the Janesville High school will be played tomorrow afternoon at 4:15 o'clock in the gymnasium of the school, and those who wish to witness it will be required to pay the enormous sum of five cents. The charge, though seemingly designed to restrict the attendance to princes of the royal blood is a necessary tax, as the Athletic association is slightly in debt, and the money is needed to enable it to liquidate its obligations. The game will doubtless be a spirited one, as the players engaged are among the most expert in the school. The teams will be lined up as follows:

First Team.	Position.	Second Team.
Carper, Dougherty.	Forwards.	Carr, Richardson.
Murkin, Palmer.	Center.	Kimball, Nowlan.
	Backs.	Farmor.

ENGAGE BOWER CITY BOY

Will Defend State University Student Charged With Raising Disturbances.

Attorney E. Ray Stevens, a former well known Janesville man, now of Madison, has been engaged to defend the Madison students arrested for participating in a riot at the opera house in that city.

McFarland, of Dubuque, a freshman in the ancient classical course. Cannon was immediately taken to court and pleaded guilty. He requested sentence at once. McFarland pleaded not guilty and his case went over for a week, bail for \$300 being secured by his attorney, E. Ray Stevens. Judge Donovan imposed a fine of \$75 and costs on Cannon, with the alternative of 90 days in jail. Members of his class contributed the \$75.

RECEIVES TEMPTING OFFERS

Local Bag Puncher May Visit Oshkosh and Milwaukee

Edwin R. Lloyd, of this city, is a master in the art of bag punching, and his excellent gymnasium work in this line is winning him fame far from home. He has now under consideration a tempting offer to visit Oshkosh and Milwaukee for the purpose of giving an exhibition before well known athletic clubs of those cities.

In the rear of his East Milwaukee street home Mr. Lloyd has a well fitted up gymnasium that lacks nothing in the way of equipments. For some time past Mr. Lloyd has made a specialty of bag punching, and his fast and many difficult movements would do credit to men in the business. Many of these movements are his own, and for a young man of but twenty-one he is truly a coming light in this well-known and ever popular sport.

BURGLARIZE A BARBER SHOP

Chief Hogan Notified of Robbery Committed at Milton Junction.

Proprietor William, of the barber shop at Milton Junction, was in the city yesterday and notified Chief Hogan that his tonsorial parlors had been burglarized. The thieves gained an entrance by forcing in the front door after having tampered with the lock. When once inside they helped themselves to a dozen razors, a pair of scissors and a pair of hair clippers. They took nothing else. The police kept close watch for the stolen plunder here yesterday, but no clew has yet been obtained.

QUICK WITH A GUN

HOW A BRAVE SOLDIER SCARED AN OLD INDIAN.

Lieut. Brewer's Experience with Rain-in-the-Face—He Insisted on Having the Soldier's Yellow Vest and Ho Got It.

Among the officers of the regular army who have recently paid a brief visit to Chicago army headquarters was Capt. Edward P. Brewer, Seventh Cavalry. Capt. Brewer, when a lieutenant, was stationed at Fort Sheridan with his troop during the World's Fair. Brewer is known among his brother officers and the society of Chicago as "Pansy," a name given to him for his extreme nicety in dress and his performances as escort millaire to the Infanta Eulalie. But he is no carpet knight, as his encounter with old Rain-in-the-Face will demonstrate.

During all the years of his service—with the one exception of his four at Sheridan—Brewer has been in the field or frontier garrisons. He has put in many long years on the trails of Apaches and Sioux, and is noted as an Indian fighter. The encounter with the wily, treacherous, cross-eyed, bow-legged old chief and medicine man was the aftermath of the last uprising among the Sioux. Brewer and his command went forth from Rosebud and rounded up old "Rain" and his band and forced them to get back to the agency. This made the old Indian very sore, and he lay for a chance to get even. He got even, but eventually quit loser. This is how it all came about:

Soon after his return Capt. Brewer applied for a few days' leave of absence to visit some friends a few hundred miles away. Having received permission, he started in the ambulance one morning with a party of ladies for the railroad depot.

Looking ahead, they were considerably surprised to see a mounted Indian, with a rifle thrown across his saddle bow, blocking the passage. He was one of the finest specimens of his race, a man of about 45 or 50 years of age, well built, and dressed with the gaudiest of costumes. Nervously toying with the rifle across his saddle and casting several scowling glances at the lieutenant, whom he no doubt recognized as his recent captor, he spoke a few very impressive and vehement words to the old driver, who spoke Sioux about as well as the Indian himself.

"What does he say, Burgess, and why don't he let us pass?" inquired the lieutenant, scenting some devilment on the part of his copper-colored friend. "It's Rain-in-the-Face, sir, and he says he wants your yellow vest."

Impressed with the fact that there

LIEUT. BREWER.

was no alternative, and moved by the entreaties of the frightened ladies, the lieutenant reluctantly disrobed and passed the coveted prize to the red-skin, who received it with a malicious grin of triumph, and then allowed the ambulance to proceed. Brewer had no intention of letting the matter drop here, but resigned himself to the sting of the premeditated insult, with as good a grace as possible under the circumstances, firmly resolved to fix that Indian at the first opportunity that offered. He requested the driver and the ladies to maintain the strictest silence.

After the expiration of his leave he returned to the post. A few days after he chanced to meet a few Indian boys and promised a big silver dollar to the one who should first inform him when Rain-in-the-Face came into the post. A month went by and Brewer was sitting one afternoon with a group of officers, expatiating on the virtues of the first sergeant of K troop, an old dragoon of twenty years' service, when he was interrupted by the steward, who announced that an Indian boy was impatiently demanding to see him.

Immediately the almost forgotten episode of the vest occurred to Brewer, and, unceremoniously seizing his campaign hat he rushed for the door. A little half-naked Indian boy informed him that Rain-in-the-Face had just come into camp, and then reached out his hand for the coveted dollar.

Mr. Brewer ordered his horse, and, mounting, rode across the parade in the direction of the now visible red-skin, who was heading up the well-beaten path to the "canteen." The first intimation old "Rain" received that any one was anxious to see him was the whistling of a bullet past his head. Hastily glancing in the direction of the shot, he saw his old cavalry friend heading toward him at full speed. Rain-in-the-Face immediately wheeled his supple little pony in the direction of the agency and set out at full speed. Brewer, seeing that he had his man on the run, satisfied himself with keeping a couple of hundred yards in the rear. The chase led up hill and down dale. The prairie flew by so fast that it made one dizzy to look at the tall grass. Brewer dis-

charged an occasional shot to make the Indian appreciate the gravity of his situation. The chief was now thoroughly frightened, and gave vent to his feelings by a series of short, high shrieks at every shot.

Rain-in-the-Face reached his tepees, flung himself to the ground, and rushed inside to grasp a weapon when Brewer's rifle rang out again and a ball tore its way through the dry buffalo hides of the Indian's tent. The sturdy lieutenant reined up his panting steed in front of the squalid hovel, and, with his rifle at his shoulder, summoned the terrified savage to come out.

Rain-in-the-Face sheepishly obeyed, with his hands held over his head in token of surrender. Brewer made the Indian disrobe. He removed his feathered ornaments, ghost shirt, breech clout, beaded leggings and moccasins, until he was as devoid of clothes as on his natal day. Brewer then directed him to place his apparel on the flames, which he sheepishly did. The finery was soon converted into ashes, and his most prized and boasted trophy—the yellow vest—was next ordered produced. Its pristine gaudy splendor was gone, as it had too often partaken of the food of its thievish possessor. With another shot or two which threw up the dirt at the Indian's feet, Rain-in-the-Face executed

SIGHTED HIS GUN.

some rapid steps never known to war dance or puppy feast, and disappeared into the corner of his dingy tepee. Rain-in-the-Face, the great Ogalla Sioux, chief warrior and medicine man, the pride of his race, was cowed by a boy lieutenant, half his age.

Lieutenant Brewer and Rain-in-the-Face frequently met afterward, but the Indian skulked at the heels of the young lieutenant like a whipped cur.

Awoke in a Coffin.

John Clark, an inmate of the Dodge City (Kan.) Soldiers' home, apparently died, was placed in a coffin and the body was put in a room for the night, ready for burial the following day. During the night a great noise was heard in the room occupied by the supposed dead man. Watchers rushed in and found Clark, who had kicked off the unfastened cover of the casket, sitting up and gasping for breath. Stimulants were applied and the man supposed to be dead revived, and is now alive to tell his experience in death. Clark related that he was seized with hunger and that his feet were cold. He said he did not believe he was in heaven, for he would not be hungry there, and he could not think himself in the other place, for if he had been there his feet would not be cold.

ESCAPED FROM THE COFFIN.

The most remarkable experience of Baron Corvo, who was to all appearances dead and was then placed in a coffin and entombed, is told here by the baron himself. In a plain but vivid manner he describes his sensations as the priests said the last sad rites, his coffin was nailed up and he was carried off to the tomb, which was about to be sealed up by concrete.

Baron Corvo's thrilling story of how it feels to be buried alive has great timely interest just now, in view of the agitation in favor of a stricter examination of persons supposedly dead.

The baron had been a student in a Roman priesthood, but, being ill, he went into the hills of San Giorgio, living in a villa there. Close at hand was the convent of the Capuchini, in whose garden the baron used to walk. One day, frightened by a lizard that suddenly leaped into his sleeve, he fell to the ground, apparently unconscious. As a matter of fact, he says, he was perfectly conscious. The doctors

BARON CORVO.

toiled over him, rubbing and bathing him and applying revivers of various kinds, during all of which the baron says that he was wholly conscious, observing everything that was being done to save his life. He says he even noted the smell of ammonia.

Finally the doctor gave him up as dead, and so informed his family. Death, he said, was due to heart failure, caused by a sudden shock of fright to a hypersensitive organization.

IN AN OLD FRENCH TOWN.

The Traveler Feels Centuries Away from Ordinary Surroundings.

The very name of the hotel at which the traveler alights will help to foster the illusion that he has put not only miles, but centuries, between himself and his ordinary surroundings, says the Nineteenth Century. Its sign, De la Haute Mere Dieu, or De l'Image, carries him back to the days when men relied for safety in their journeys rather on the hand of an unseen protector than on the latest sanitary patent of Jennings. So, too, the names of the streets serve to strengthen the same impression. Here he can sip honey with the Bourdon blanc, capper with the Chevre qui dansent, caracole on his dextrier by the side of the Quatre fils d'Aymon, hunt Huguenots in the Rue des Renards, or make the best of both worlds with the Chapeaux Violottes. The houses that rise on either side of these quaintly-named and tortuous streets are in keeping with the old-world atmosphere. They belong to every age and every style. Here is one with high-pitched roof and timbered front, its three stories jutting out one above the other, like an inverted staircase. Another, decorated with the broken escutcheon of some noble family, fascinates the passerby with the grotesque figures into which its joists are carved, or that grimace from the gable-ends. On the door of a third, huge nails trace mysterious hieroglyphs, some protestant's confession of faith, or some leaguer's curse on Henri Quatre. A fourth, of less ambitious type, bears upon its noble front the symbols of a burgher's noblesse de la cloche. A fifth, standing back a few paces from the street, with a stone-paved courtyard, where pigeons are wooing with all the formal courtesies of Sir Charles Grandison, has an iron gateway, worked in the style of Louis XV., with marvelous interlaced branches, the masterpiece of some unknown Jean Lamour.

"La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days by the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting down." Reed Overruled.

At last Speaker Reed has been overruled. At a recent annual meeting of the Daughters of the Confederacy at Hot Springs, Ark., a lively dispute arose as to whether the minutes of the previous meeting should be read before business could proceed or not. One daughter ventured to quote Speaker Reed on the subject, but she was promptly overruled and the reading dispensed with, on the motion of another daughter, who asserted vehemently that "Tom Reed didn't know what he was talking about."

HOARD NEEDS A CHANGE

Ex-Gov. W. D. Hoard discusses The Gazette's position on the factional differences in the republican party at some length in his paper, The Fort Atkinson Union. He calls The Gazette a "machine organ" and says that a "nod of party boss means more than the interests of the people." He denies that there was a "factional fight" last fall, but called it an "uprising" that bodes an "upheaval" for the "corrupt methods" of "the gang" the members of which are now "rolling in ill gotten wealth" after turning the "republican temple" into a political brothel. He speaks of "government of the lobby," and then turns, to the "political treachery of years" and "base betrayals of faith," as well as "unclean birds who have fouled the republican nest;" and winds up with this paragraph:

"We are aware, that to the average politician, who has no higher definition of party or patriotism, than had Flannigan, of Texas, all this talk of ours will appear as sublimated nonsense. But we are also aware that the people who have votes to give are not office holders, nor office seekers; that the honesty of leadership is becoming a vital question. They will take care of this matter in due time; and when they do so decree, there will be peace."

The recent "disturbance" in the republican party was nothing but a "factional fight," and every sane man knows it. The fact that the factions agreed as to the platform, and disagreed only as to candidates, proves this fact conclusively. Gov. Scofield's supporters controlled the convention, and made the platform—one that was satisfactory to all concerned. Gov. Scofield's message shows that the charge that the administration seeks to form a "government by the lobby" is senselessly untrue.

The "political treachery of years," apparently dates only from the time that the governor went out of office. Likewise, the "base betrayal of faith." Otherwise, the ex-governor would have been heard from long before this. When Henry C. Payne was state chairman, he refused to do Hoard's bidding with reference to maintaining the Bennett law issue—which may have been the first example of the "political treachery" mentioned.

Nods from political bosses may not mean as much as the ex-governor thinks, but in this respect The Gazette must "take his word for it." No political boss has ever nodded at The Gazette. This paper may be owned and controlled by honest men in spite of the ex-governor's evident opinion to the contrary. Mr. Hoard has not yet become so powerful a boss that he can change black to white. Nor can the nod he now makes, change The Gazette's ideas.

The Gazette is "heart-whole and fancy free," and is as thankful that it is not bossed by Mr. Hoard as it is that it is not bossed by H. C. Payne, Edward Wall, John Doe, Richard Roe, or anyone else.

The "republican temple" will never be "turned into a political brothel," and no person with a controllable temper, or a man's judgment will say that it ever was. Nor do the people need any help in selecting a leader. They can do that without calling for any "expert testimony."

We agree with the ex-governor that "there can be no peace with the unclean birds that have fouled the republican nest." And perhaps we can name some birds of that character that are not on the ex-governor's list.

To "roll in ill-gotten wealth" is certainly an exceedingly disagreeable habit, but their is a general belief—among a certain class of envious people—that anyone who has wealth does that sort of thing. And whether dairy butter, street railway tickets, or the plain old pick and spade are responsible for the wealth, makes no difference.

The closing paragraph in the ex-governor's article tells the people that they are not as well posted as they might be. Perhaps such is the case, but The Gazette doubts if the ex-governor knows any more about the matter than do the honest intelligent sons of Rock county—they are not all Flannigans, nor did they all come from Texas.

The Gazette gives its hearty assent to the statement, "We are aware that the people who have votes to give are not

"so decree, there will be peace"—in spite of the fact that the ex-governor will not favor peace until after he has succeeded in using the party to punish individuals to whom he has taken a dislike—turning, if you please, the party "into a political brothel" in which he may accomplish the fell work of slaying the men who have dared to disagree with him.

And if we may be allowed to make a suggestion, we would hint to the ex-governor that his article is complete in all but two respects—he fails to advocate the lynching of the black-hearted scoundrel mentioned, and he neglects to suggest, except by inference, that the Moses for whom he thinks the republicans of the state so yearningly long is named Hoard, William Dempster Hoard.

The ex-governor should take a long vacation. He should have a change of scene. He should realize that "As much of Heaven is visible as we have eyes to see." Also, as La Rochefoucauld said, "One kind of happiness is to know at exactly what point to be miserable," and "When our hatred is too bitter, it places us below those we hate."

The man who will not sink his personal grievances for the good of his party, is not a safe advisor. The Gazette insists that peace should be brought about in spite of the professional axe-grinders, who would involve the whole party in their petty personal affairs, regardless of the effect such action would have on the principles that the American people hold so dear.

THE DOODLE BOOK PIGMIES

The Milwaukee Sentinel is "quite worked up" because The Gazette has not taken a hand in the senatorial contest. Of course The Sentinel realizes that The Gazette's aid is valuable, while The Sentinel's is valueless. This fact crops out every day or two, as The Sentinel's jealousy cannot be concealed.

It is not necessary to tell the people of Rock county anything about the senatorial situation. They know who they want. The sentiment is unanimous, and has been, for Joseph V. Quarles, of Milwaukee. Mr. Babcock may have a few supporters, but they are very few. Senator Whitehead and Assemblymen Wheeler, More and Parker will all vote for Quarles at tonight's caucus, because the people want them to.

The Gazette does not expect anything but abuse from The Sentinel. The doodle book pigmies who do the thinking for that paper are too small to get their ideas out of the one little rut—the doodle book, or its equivalent. The Sentinel is nothing but the personal organ of a few small bore "clickers." They boast that they can use the paper, and blind the eyes of the stockholders with honeyed words.

The Sentinel is a splendid newspaper, and the men who handle the news service know their business. But the editorial page is but a mass of drivel published with but one idea—to gratify the petty personal spite of the small bore men who have no realization of what the real purposes of a metropolitan newspaper should be. That such men are entrusted with the responsibility and management of great interests such as those of The Sentinel company, is surprising. Sooner or later, however, The Sentinel pigmies will be found out, and then there will be a "shake up" that will benefit both The Sentinel company and the republican party.

In the meantime The Gazette is perfectly willing to be abused by The Sentinel. A man's worth is often shown by the character of the enemies he makes, and The Gazette finds a good deal of satisfaction in the fact that its policy does not suit the doodle book pigmies who mismanage The Sentinel and misrepresent the intelligence of the people who own it.

So far as we are concerned, The Sentinel is welcome to the exclusive right to stab people in the back under cover of darkness. It has stabbed Gov. Scofield—but without effect, of course—it has stabbed The Gazette—with the same result—and it will stab Mr. Quarles before the present contest ends.

The funeral of the late Irving M. Harrington took place this afternoon from his late residence, 110 Madison street, under the direction of Janesville Commandery Knights Templars. There was a large attendance, and Rev. R. C. Denison, of the Congregational church, officiated. Among the floral decorations was a broken circle from the employees of the Rock River Cotton company, Wisconsin, Consistory, of Milwaukee, and the Mystic Shrine of the same place, sent beautiful floral testimonials. Elizabeth Robinson Easterly

Elizabeth Robinson, wife of the late William G. Easterly, died suddenly of apoplexy at Moravia, New York, January 9, 1899, aged seventy-six years. Married in early life they removed to Wisconsin and were residents of Rock county until 1882 when they returned to the east and made a home for themselves in Moravia, N. Y., but never losing their interest in the old home and friends in and near Janesville, and keeping in touch with them by continuing to subscribe for the "Weekly Gazette" to the end of life.

Mrs. Easterly was an estimable woman and a faithful and helpful wife, ever true to the kindred points of heaven and home. She looked well to the ways of her household and she did not eat the bread of idleness, but was a life-long pattern of frugality and industry. Let her own works praise in the gates. None ever received from her anything but kindness, while the erring and the lowly were not beyond the reach of her sympathy and Christian charity. Her beloved church and pastors were ever objects of her care and prayers. Naturally self-reliant, cheerful and trusting, she continued even in her lonely widowhood, to maintain her own home and enjoy her large circle of relatives and friends. Age seemed to turn back from touching hands so active and heart so true as hers, and without sickness or apparent infirmity, she passed onward to the larger life. She is survived by one sister, the last of a large family, and many nieces and nephews, who cheered her declining years. She leaves no children. Interment in the Moravia cemetery, beside her husband.

Isaac G. Porter.

Evansville, Wis., Jan. 17.—Mr. Isaac G. Porter died suddenly at the home of his son, J. P. Porter, in this city, early yesterday morning, of uric acid poisoning, aged 71 years. Mr. Porter resided on his farm near Cooksville for many years, and came to this city about five years ago; since that time he has resided with his son. He was very highly respected, and only known as a friend to all. His wife died about twenty years ago. He leaves two sons and one daughter, John P., cashier of the Grange bank, Henry, who resides on a farm near this city, and Mrs. Soverhill, of Janesville. The funeral services will be held at the house on Thursday. Interment in the Cooksville cemetery.

N. W. Dennis.

Norman W. Dennis died very suddenly at his home here, Monday morning, January 16, aged seventy-four years. Mr. Dennis had been in poor health for several months, but his condition was not alarming. He attended church last Sunday and was feeling as well as usual. Mr. Dennis has been a resident of Evansville for about fifteen years, coming here from Rutland, where he had resided for over forty years. The fifth of last September Mr. and Mrs. Dennis celebrated their golden wedding. Besides a wife he leaves four sons and two daughters, Rev. C. W. of Emerald Grove; A. H. of Flanagan, S. D.; D. R. of Kansas City, Mo.; Ira B., of this city; Mrs. E. Emms, of Perry, Ia.; Mrs. Julia Hall, of this city. The funeral services were held at the Free Baptist church, of which church he has been a deacon for over thirty years, on Wednesday afternoon. Interment in this city.

Thomas Rooney.

From St. Patrick's church at 10 o'clock this morning solemn high mass was celebrated over the remains of the late Thomas Rooney. Father E. M. McGinnity preached a most excellent sermon, paying a glowing tribute to the deceased. The interment was in Mount Olivet cemetery.

The pall bearers were intimate friends of the deceased as follows: J. M. Rouch, Geo. P. Cullen, Patrick Shields, M. Gleason, John Cullen and William Sheridan.

Mrs. Mary Milne.

The funeral of the late Mrs. Mary Milne will take place tomorrow afternoon at 2 o'clock from the Palmer Memorial hospital. Interment in Oak Hill.

Rev. A. D. Hendrickson.

The funeral of the late Rev. A. D. Hendrickson will take place from his late residence tomorrow afternoon at 3 o'clock. Rev. Mr. Peterson, of Milwaukee, will officiate.

BROUGHT SUIT FOR TOMBSTONE BILL

EX-SHERIFF HUTCHINS THE PLAINTIFF.

Mrs. Elizabeth Holmes Was a Little Slack in Settling for Stone She Purchased for Her Husband—Defendant Lives Near Shopiere While Plaintiff Makes Rockford His Home

Before Judge Fifield, of the municipal court, this morning, was tried a civil suit that was entirely out of the usual order of cases in that temple of justice. The entitled action was that of Amasa Hutchins vs. Elizabeth Holmes, the plaintiff bringing action for judgment on two notes that the defendant had given, aggregating a total value of \$250. The defendant is a well known settler residing near the quiet little village of Shopiere, and in 1896 purchased a tombstone of the plaintiff, who is a well known marble dealer residing in Rockford. This tombstone came to \$250, and was delivered and placed on the grave of the defendant's deceased husband.

In payment for this stone Mrs. Holmes gave the notes, one for \$100 and the other for \$150, and when it came time to settle she was unable to meet the payment. Mr. Hutchins became impatient for his money, and engaged the services of the local law firm of Smith & Pierce, who commenced suit.

When the case was called this morning the defendant was represented by her son, D. H. Holmes.

After hearing the issues in the case the court found for the plaintiff in the sum of \$290.89 and costs, or a total of \$372.

The plaintiff is an ex-sheriff of Winnebago county.

This afternoon the case of Mary A. King vs. J. McKevitt was called in court. The plaintiff brings suit in an action of unlawful detainer. A summons of ejectment was served on Mr. McKevitt, who is the present landlord of the Highland house on East Milwaukee street, such summons being estimable today.

BELOIT COLLEGE PROSPECTS

Trustees Transact Business and Confer a Few Degrees.

Beloit, Wis., Jan. 18.—The trustees of Beloit college held their annual midwinter meeting yesterday. The attendance was unusually large, though there was not a great amount of important business transacted. Very favorable reports were read from the college and academy and the affiliating academies at Rochester, Warren and Port Byron. Two new trustees were elected—Professor George E. Hale, director of the Yerkes observatory at Lake Geneva, to fill the place left vacant by the death of his father, and G. W. Kretzinger, a lawyer of Chicago. The degree of doctor of literature was conferred upon Rev. Charles R. Gillette, of the Union Theological seminary, of New York. The instruction committee reported favorably on the work done by Prof. Tawney and he was made professor of mental science and philosophy. The work of Alexander E. Matheson, of Janesville, as lecturer on international law, was also commended. It was voted on recommendation of the faculty to unite with a great many other colleges of the country in a movement started by Gen. Wheeler and being pushed by a committee in New York to educate two young Cubans apiece.

CHAS. FOX DECLARED INSANE

Sheriff Appleby Will Convey Him to the Mendota Hospital.

Sheriff Appleby today secured from the county court of Rock county the necessary paper for the arrest and confinement of Charles Fox, of Milton Junction, to the state hospital for the insane.

Fox is an unmarried man, and for some time past has been acting queerly, causing his relatives much uneasiness. He was in the habit of going to his room and locking himself in so that no one could reach him.

Sheriff Appleby left this afternoon to secure Fox and convey him to the hospital for the insane.

A Remarkable Creation.

A most remarkable cremation will take place when Joaquin Miller, "the poet of the Sierras," dies. He has built a great funeral pyre on his property at Oakland, Cal., in the form of a cube, nearly ten feet each way, made of boulders set in cement. On the top of this his body will be placed and burned, and the ashes will then be flung to all points of the compass, if the provisions of the will are carried out.

Largest One Ever Launched.

The largest boat ever launched on the Mississippi slid off the ways at the Iowa Iron Works ship-yard in Dubuque on Monday. This is a transfer steamer built for the Texas & Pacific Railway Company to be used at New Orleans. It is a steel hull 303 feet long, 56 foot beam and 87 feet over all, and covers five-eighths of an acre or 28,000 feet. The vessel will leave Dubuque, drawing but seventeen inches of water and will receive her machinery at New Orleans.

The home throughout was tastefully decorated with cut flowers, while in the dining room refreshments were faultlessly served.

The Orpheus Mandolin orchestra furnished delightful music, and the function proved one of the most pleasant of the season. The hours were from 2 to 7, invitations having been issued to 275.

HARDING BEFORE THE COURT

Now Confined in Jail in Default of Eight Hundred Dollars Bail.

Benjamin F. Harding, of 159 North Jackson street, who was arrested yesterday on the charge of burglarizing the Barriage saloon on North Main street, appeared in the municipal court this afternoon, waived examination, and his trial was set for next Tuesday.

Bail was placed at \$800, and in default of the necessary cash he went to jail.

Harding has confessed that he alone committed the crime, and now all there is to do is for the court to pass sentence.

CHANCES SLIM FOR RECOVERY

Mrs. James Sutherland Gradually Failing as Result of Accident.

Mrs. James Sutherland, who was so badly burned a few days ago by scalding water, shows but little improvement, and today it was feared that she would not live through the day. She suffers much, and on account of being close to seventy years of age her chances for recovery are much less than those of a younger person would be. Relatives here say that it now looks as though she would not recover.

CHINESE BLACKMAILING.

Heavy Extortions on a Railroad Official at Peking.

A curious instance, and by no means a flattering one, of Chinese methods of government has just been supplied by the arrival of Sheng Taotai from Shanghai, says a Peking dispatch to the St. James Gazette. This gentleman holds several important posts, and among others has the appointment of director of railways. He is also the administrator of the Chinese telegraphs, and has an excellent reputation among foreigners for his tolerance and open-mindedness. Recently he was called here by command of the emperor to confer about the several reforms which his majesty was so eager to adopt. The chief officials of Peking hailed his advent with delight, as it at last gave them the opportunity of a "squeeze," which had been quite impossible while Sheng was so far distant from Shanghai. The modus operandi is quite a usual and an every-day one and deserves notice. The gates of Peking are farmed out to high officials, chiefly princes of royal blood. All merchandise is examined and is passed on payment of a small tax. But when an official like Sheng comes in, from whom they are desirous of exacting a good round sum, the procedure is altered. In this particular case Sheng was given to understand that contraband articles would be found in his luggage unless he satisfied the farmers of the gate. I believe I am correct in saying that Sheng did not even attempt to dispute, or haggle, but resignedly asked what amount was required. The answer was 30,000 taels. This was paid or promised, and Sheng proceeded on his journey, probably glad at having got off so cheaply. But against all precedent and custom, he was stopped at the inner gate, and did not get off under 20,000 taels. So altogether this unfortunate official, called to the capital by the emperor's order, had to pay

TO DISCUSS WAGE SCALE.

Coal Operators and Miners in Joint Convention.

BOTH SIDES DETERMINED.

The Men Are Prepared to Insist There Shall Be an Increase in the Wages Paid—Operators Want the Chicago Agreement to Be Continued.

Pittsburg, Pa., Jan. 18.—The joint convention of the operators and miners meets this afternoon in Carnegie hall, Allegheny, for business.

The delegates of the operators and miners met Tuesday in preliminary session. President Ratchford of the miners' organization called the meeting to order, and after a few remarks by him, Alexander Demster, one of the Pennsylvania operators, was elected president and W. C. Pearce of the miners secretary. After the appointment of the various committees the convention adjourned.

The first brush between the operators and miners was won by the former in the committee on rules and order of business. There was an even break on everything until the miners were induced to vote for a rule which requires the vote of every state from both sides before any resolution can be adopted. The miners opposed the unit rule, which was in force in the Chicago convention, and it is not believed that they saw in the rule which they finally adopted the essence of the unit rule.

There have been caucuses of both the operators and miners, and both sides have indicated a determination to fight for what they call "principle." The miners insist that there shall be an increase in wages; that there shall be a universal eight-hour day, and that the run-of-mine system shall be adopted in all the competitive fields. Illinois and Indiana are ready to fight for this, but there is some question about the other states. Every possible effort is now being made to divide the miners, but it is said that they have been "lined up," and that even those who have disagreed on technical points will stand together on the question of making a new scale.

A well-known operator gave it as his opinion that the majority of the operators would be willing to endorse the scale made in Chicago a year ago and continue work under it. He said, however, he did not believe that the eastern operators would grant an advance in wages, no matter what position the operators from Illinois took. He said West Virginia coal was cutting into all the markets and that the coal from that state was being mined at rates that were proving ruinous to operators from other states.

The Illinois and Indiana operators are willing to do anything that will insure them the peace that they have enjoyed during the last year. The Hocking valley operators are still conspicuous by their absence and no one has been authorized to speak for them.

The scale committee of the miners is wrestling with the question of how much of an advance shall be demanded. It is generally understood that the committee will favor an advance of 10 cents a ton, although this has not yet been decided upon by vote. It is said that the southern Illinois operators will insist that there shall be an increase of 4 cents a ton on the mining rate for the northern Illinois fields before they will consent to any general increase in wages.

The announcement of the vote for the election of officers was made Tuesday. John Mitchell of Illinois, for president, received 571 out of the 636 votes cast. Other officers elected are: Vice-president, T. W. Davis, Ohio; secretary, W. C. Pearce, Ohio. The executive board is composed of Fred Diller, Ohio; Henry Stephenson, West Virginia; Edward McKay, Pennsylvania; G. W. Purcell, Indiana; W. R. Fairley, Alabama; James Boston, Illinois. The delegates to the American Federation of Labor are: John Mitchell, J. M. Hunter, W. C. Pearce and Fred Diller.

LYNCHERS NOT INDICTED.

Special Grand Jury at Scottsburg, Ind. Adjourns Without Action.

Scottsburg, Ind., Jan. 18.—The special grand jury called to investigate the lynching of Marion Tyler in this city Dec. 24 adjourned Tuesday without returning any indictments.

The jury filed a written report, telling of the work that had been done, and concluded with the statement that no evidence could be secured upon which to base indictments. Judge New, who summoned the grand jury in special session, is indignant, and says he will continue his efforts to bring the lynchers to punishment. The governor and the attorney general may be appealed to.

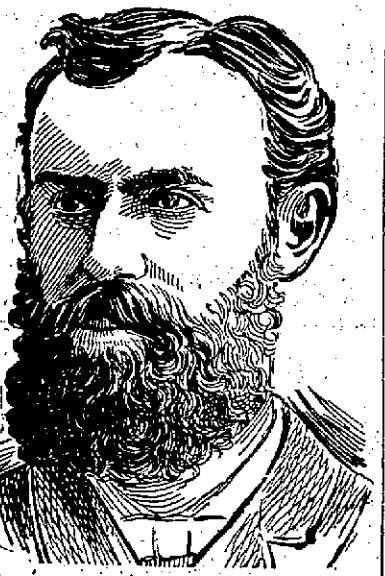

Nervous Dyspepsia

To Gain Flesh, to Sleep, Well, to Know What Appetite and Good Digestion Mean.

MAKE A TEST OF STUART'S DYSPEPSIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are to blame and are surprised that they are not cured by nerve medicines. The real seat of the mischief is lost sight of. The stomach is the organ to be looked after.

Nervous dyspeptics often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every organ. In some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are

troubled with loss of flesh and appetite with accumulations of gas, sour risings and heartburn.

It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache.

E. church; also takes an active part in the work of the Epworth League, and to write on religious and educational topics for several magazines. How he found relief is best told in his own words:

"Some weeks ago my brother heard me say something about indigestion, and taking a box from his pocket said 'Try Stuart's Tablets.' I did, and was promptly relieved. Then I investigated the nature of the tablets and became satisfied that they were made of just the right things and in just the right proportions to aid in the assimilation of food. I heartily endorse them in all respects, and I keep them constantly on hand."

Indiana Soldiers Are Anxious to Leave Havana.

ONE OF THEIR NUMBER DEAD.

Col. Durbin's Command Hopes to Be Mustered Out at an Early Date—Three Members of the Regiment Isolated at the Detention Hospital.

Havana, Jan. 18.—The One Hundred and Sixty-first Indiana regiment wants to go home. The death of Jacob Dexter, a private of the hospital corps, who succumbed to smallpox Tuesday, has shaken the nerve of the entire regiment, and the one topic of conversation in the company streets is the probable chances of an early mustering out of Col. Durbin's command. What adds somewhat to the uneasiness of the men is the fact that Dexter's malady took a hemorrhagic nature, the most contagious form the disease can assume, before death. Dexter's home was at Monticello, and it was his concern for the welfare of two of his townsmen, Scott and Jones, that led him into danger. He insisted upon caring for them against the orders of Maj. Smith. Jones is convalescent and is now nursing Scott, who contracted the disease while attending him.

Alonso Graham of Madison, Ind., a private of company E, is in a very precarious condition. Three more suspicious cases have been isolated at the regimental detention hospital. Maj. Smith and two assistant surgeons are busy vaccinating the unprotected men of the command, the long-delayed vaccine virus having arrived. Maj. Harry McGraw of Indianapolis will go home on a thirty days' leave. He is suffering from an attack of calentura. The regiment is hopeful that his return may stir Gov. Mount and the Indiana authorities to efforts to get the regiment recalled from duty in Havana.

Gen. Chaffee is another sufferer from calentura, which disease is likely to prove the most persistent foe that the American garrison here will encounter.

ILLINOIS LEGISLATURE.

Very Little Business Transacted at Tuesday's Session.

Springfield, Ill., Jan. 18.—Nothing was done in either branch of the legislature at the brief session Tuesday beyond the introduction of Senator Busse's pawnshop bill.

It is probable that the house and senate committees will not be announced until Thursday.

Mr. Meany's proposition for an official railroad pass for members is favorably considered by both legislators and railroad men. Under the present law legislators receive mileage allowance for but one round trip from their homes to Springfield and return. Nearly all go home once a week.

Col. Clark B. Carr of Galesburg, president of the American Maize Association, is here to urge a liberal appropriation for the corn exhibit at the Paris exposition. He thinks \$40,000 would be about right. The association will ask the corn-producing states of Indiana, Illinois, Iowa, Kansas, Nebraska and Missouri to join in demonstrating at Paris the value of corn as food for man and beast.

Decline to Give Up Arms.
Pana, Ill., Jan. 18.—The recent claim that the non-union negroes were without firearms having been proved false by the killing of Evans, Sunday, a meeting was held Tuesday, with Sheriff Downey, Mayor Fenwell, three officials of the Miners' union and many of the operators present, to consider a plan for disarming the men. The operators declined to surrender the arms carried by the negroes, claiming the weapons had been sold to the men, and that therefore the operators had nothing more to do with the matter.

Want Peace Treaty Amended.

Washington, Jan. 18.—The democratic opponents of the peace treaty were in conference several hours Tuesday devising ways and means for conducting their contest. They resolved to insist upon an amendment placing the Philippines on the same footing in their relations to the United States as Cuba, and to make a persistent fight if this concession was not granted.

Carlists Gaining Strength.

London, Jan. 18.—The Times prints from a correspondent in Spain a column article on the chances of the pretender, Don Carlos. Among other things the correspondent says: "Many officers do not hesitate to declare in favor of Don Carlos, but the army waits for a leader. The opinion of the Carlists and of many non-Carlists is that if Don Carlos should land in Spain the army would go over to him in overwhelming numbers, and he would probably have a 'walk-over' after the first skirmish or two."

Ghent as an Island City.

The famous old city of Ghent, Belgium, is built on twenty-six islands, which are connected with one another by eighty bridges. Three hundred streets and thirty squares are contained in these islands. Ghent is famous because Charles V. and John of Ghent were born there. It has been the scene of many treaties, insurrections, and revolts, and it was there the treaty was made terminating the war of 1812 between this country and England.

BRIEF BITS OF HUMOR.

A DUBIOUS COMPLIMENT.

How President Cleveland Discomfited a Shrewd Officeholder.

"I'll tell you a story about President Cleveland that you probably never heard," said a prominent Detroitier the other day. "One of those rascally loafers in Washington who sometimes find their way into office rented the house of an aged widow who was dependent from that source for her entire income. He put her off from month to month and finally laughed in her face as he told her that he wouldn't pay and that she couldn't make him pay. He would not go out till the law put him out, and he would avail himself of all the delays possible. She consulted a lawyer who had been a friend of her family for years, but the lawyerish officeholder was even more independent to him. The case was so hard that he went personally to the president, who had heard the facts, and then said in an indignant tone, 'Get the fellow's note.'

"But his note isn't worth the paper it is written on."

"No matter. Get his note and bring it to me."

"There was no trouble in carrying out this request, the debtor expressing his delight at being allowed to settle at the trouble of writing a worthless obligation. The lawyer took the note to the White House, presented it to the president and said, 'Now what?'"

"This," replied the president as he wrote his name across the back. 'I endorse it. Now demand payment.'

"The officeholder was in a leading hotel when the lawyer walked up to him and asked a settlement as he handed him the note. The fellow sneered until he turned the paper over. Then he turned purple, stammered out a request that the lawyer wait there for ten minutes, and inside of that time was back with the money. From then on he was smart enough to pay as he went, and now he plumes himself on the fact that the president of the United States once endorsed his personal note."—Detroit Free Press.

A Wise Cook.

Strange to say, they had an Irish cook in the Curragh camp, and he was no great shakes as a cook. There was a big saucepan of soup on the fire one day, and it was to go to fill the bread baskets of two separate parties of men. The first group were ready for their soup, but it came not, so they sent to interview the cook.

"Where's the soup?"

"There it was on the fire, and the Emerald chef took off the lid, observing that the stuff was simmering, as evidenced by the bubbles blowing and bursting round the edges of the pot.

"Sure," said the Paddy, "it's all right and boiling half of it. I'll take

out the boiling part that's round the edges, and the rest will be hot in time for the next party."—Ally Sloper.

Americans Must Be Careful.

Standish—What's that? You say you were attacked by highwaymen on the way here?

Winthrop—Yes and robbed of every cent, after being beaten insensible.

Standish—Honest citizens ought to go armed.

Winthrop—I was armed.

Standish—Then why didn't you shoot?

Winthrop—I was afraid some of the highwaymen might be unaturalized residents, and I did not want to risk plunging my beloved country into a foreign war.—New York Weekly.

Ahead of His Time.

Baron Christian de Neuville—Noble man! Generous spirit! Best of friends! You are out of place in this barbarous age!

Cyrano de Bergerac—You're right. If I had been born two or three centuries later, I could have had this infernal nose trimmed into shape by a facial artist. That's what makes me so darned mad!

(Rushes out and kills half a dozen cutthroats to ease his mind).—Chicago Tribune.

But He Caught It Just the Same.

Mrs. Crimmonbeak—Here's a hair on your shoulder, John!

Mr. Crimmonbeak—It must be one of yours, dear.

"Mine? Nonsense! This is light and my hair is black."

"Oh, well, I guess you frightened it and turned it white, love."—Yonkers Statesman.

Miseries of Wealth.

Mr. Pinchpenny—I worked and slaved many a long year for my money only to find at last that wealth does not bring happiness.

Mr. Slimpurse—Doesn't it?

Mr. Pinchpenny—No; I can't spend a dollar without putting money into some one else's pocket.—New York Weekly.

Lots of Applicants.

"Drillum's independent company is becoming so large that he has decided to make it a regiment."

"Who is eligible for membership?"

"Any one who first planted the American colors on Cuban soil."—New York Truth.

Lost.

He—I don't believe you can tell who is to be my wife.

She (blushing)—You haven't asked me yet.

And what is more, he didn't.—Philadelphia Bulletin.
